PROFILE

A Full Stack Web Developer with more than 1200+ hours of experience of coding and creating dynamic and responsive web applications. I have a strong background in both front-end and back-end development, as well as experience working with technologies like Html, CSS, JavaScript. React, Redux, Api

PROFESSIONAL EXPERIENCE

Tech Mentor, Kalvium [🔗](#)

10/2023 – present | Jaipur, India

Tech Mentor

As a Tech Mentor at Kalvium, I play a pivotal role in guiding and supporting students embarking on their journey to become proficient software developers. With a blend of technical expertise like **Web Development (MERN Stack)**, mentorship skills, and a passion for education, I contribute to the growth and success of aspiring developers within our organization.

Key Responsibilities:

- Provide technical instruction to students pursuing software development.
- Assist with project development and provide guidance on best practices.
- Conduct code reviews and offer constructive feedback to improve code quality.
- Help students with problem-solving and debugging.

In addition to teaching, I actively work on full-stack development projects and have contributed to **company products**, such as improving and developing features for their internal platforms. Notably, I worked on the **Student Profile UI for the company's Livebooks platform**, ensuring a clean, responsive, and intuitive interface that enhanced the student experience.

PROJECTS

Fashion Mantra [🔗](#) Github [🔗](#)

Role : Front-End Developer

Clone of E-commerce website MYNTRA which sells fashion garments
