PROFESSIONAL SUMMARY

Accomplished Software Developer with expertise in the MERN stack, previously at Metaphi, where I build and enhanced ERP systems. Proficient in JavaScript React and responsive design, I excel in problem-solving and team collaboration, and integrated APIs to optimize functionality.

EXPERIENCE

Software Developer, *Metaphi Solutions*

09/2025

- Developed and maintained a custom ERP (Enterprise Resource Planning) web application using the MERN stack to manage business operations such as inventory, sales, purchases, and product management

Mumbai

Mern Developer, *Kalvium*

07/2023 – 06/2025

- Developed and maintained full-stack web applications utilizing MERN stack technologies.
- Designed responsive, user-friendly interfaces, including a comprehensive redesign of Student Profile UI.
- Collaborated in code reviews to ensure maintainable and scalable code quality.
- Debugged application performance issues across frontend and backend components.
- Integrated RESTful APIs to enhance full-stack features for internal platforms.

Coimbatore

EDUCATION

Full Stack Web Development, *Masai School, Bangalore*

06/2023

Bachelor of Arts, *V.B.S.P University, Jaunpur, Uttar Pradesh*

05/2020

SKILLS

Technical Skills

JavaScript, Redux, Node.js, MongoDB, HTML5, CSS3, React, Express.js, Git, Responsive Web Design, RESTful APIs

Soft Skills

Effective Communication, Problem Solving, Teamwork, Adaptability

PROJECTS

DevTv+, *React, Chakra UI, Redux, Mongo DB, Express Js, Node Js*

- Deployed Link: <https://devtv.netlify.app/>
- Github Repo: <https://github.com/Channa7/DevTV-debonair-salt-581->
- Developed user and admin registration and authentication features using Node.js, Express.js, and MongoDB.
- Designed and implemented CRUD operations for video management on the platform.
- Built a responsive front-end interface with React, Chakra UI, and Redux for seamless user experience.
- Integrated video streaming functionality to enable users to watch exclusive content online.

Fashion Mantra, *React, Chakra UI, Redux, MongoDB, Express Js, Node Js*

- Deployed Link: <https://newfashionmantra.netlify.app/>
- Github Repo: <https://github.com/Elizah7/animated-plants-61>

- Developed Fashion Mantra, an online shopping application enabling users to browse and purchase products conveniently.
- Implemented user and admin authentication features to ensure secure access and role management.
- Designed and integrated product browsing, shopping cart, and order placement functionalities.
- Managed admin-side CRUD operations for efficient product and order management using React, Redux, Node.js, Express.js, and MongoDB.

Daily-Essentials, *React, Chakra UI, Redux-Store, React-Router, Node Js, Express Js, Mongo DB*

- Deployed Link: <https://daily-essential-koushikniyogi.vercel.app/>
- Github Repo: <https://github.com/KoushikNiyogi/Daily-objects-clone>
- Developed a user-friendly e-commerce website for daily product purchases with a focus on intuitive UI and UX.
- Built the landing page using React and Chakra UI to ensure appealing design and responsiveness.
- Implemented user registration, authentication, and secure login features with Node.js and Express.js.
- Integrated product browsing, cart functionality, and order management using Redux-Store and React-Router.
- Managed backend development, including CRUD operations and database management with MongoDB.
